

Child Care Tour Tips

Look

✓ Go to see several child care homes or centers. Think about your first impression after each visit.

Listen

✓ Consider what the child care setting sounds like (i.e. happy children, involved caregivers/teachers).

Count

✓ Count the number of children and adults. A small number of children per adult is very important for babies and younger children.

Ask

✓ Ask as many questions as you'd like. It's important to be informed about your child's care.

For more details, check out the full [checklist](#).
